WALK-IN TUBS

The Ultimate Buyer's Guide to Walk-In Tubs

SanSpaUSA.com

As our life circumstances change, we need to take a look at our everyday life and home and see what we can improve in order to give ourselves and our loved ones a better quality of life. The bathroom is one area that, with a simple upgrade, can turn into an oasis. That upgrade? A walk-in tub. Walk-in tubs provide many benefits for those with limited mobility, for seniors who want to stay in their homes, or for those who live with chronic pain and want a way to bring relief.

There are many different walk-in tub options on the market today, but as an educated consumer, you need to understand that not all walk-in tubs are created equal. In this Ultimate Buyer's Guide to Walk-In Tubs, we'll explain exactly what you should look for, why it is a great solution for you or your loved ones, how to determine if a walk-in tub is a fit for your bathroom, and why SanSpa walk-in tubs stand above the rest.

Why Walk-In Tubs?

Let's face it, the bathtubs found in most homes are not ideal for anyone who is living with chronic pain or mobility problems, or for safely bathing as we get older. Difficulty getting in or out, lack of sufficient grab bars, the fear of slipping and falling are just a few of the reasons why a traditional bathtub may have outlived its life in your home. Not having a safe bathtub can even mean the difference between being able to remain in your home and age in place or having to consider an assisted living facility. There has to be a better solution.

A walk-in tub is your answer. A walk-in tub is a smart upgrade to your home, and can be installed without having to do an extensive remodel in your existing bathroom to accommodate it. Walk-in tubs are safer than traditional tubs and provide many health benefits to help you or your loved ones feel their best.

Hydrotherapy is the use of water to revitalize, maintain and restore health. It has been used for centuries to help treat muscle pain, joint injuries, arthritis and much more. Hydrotherapy also relieves stress and helps you achieve a greater sense of well-being.

Hydrotherapy has been used for centuries to help treat muscle pain, joint injuries, arthritis and much more.

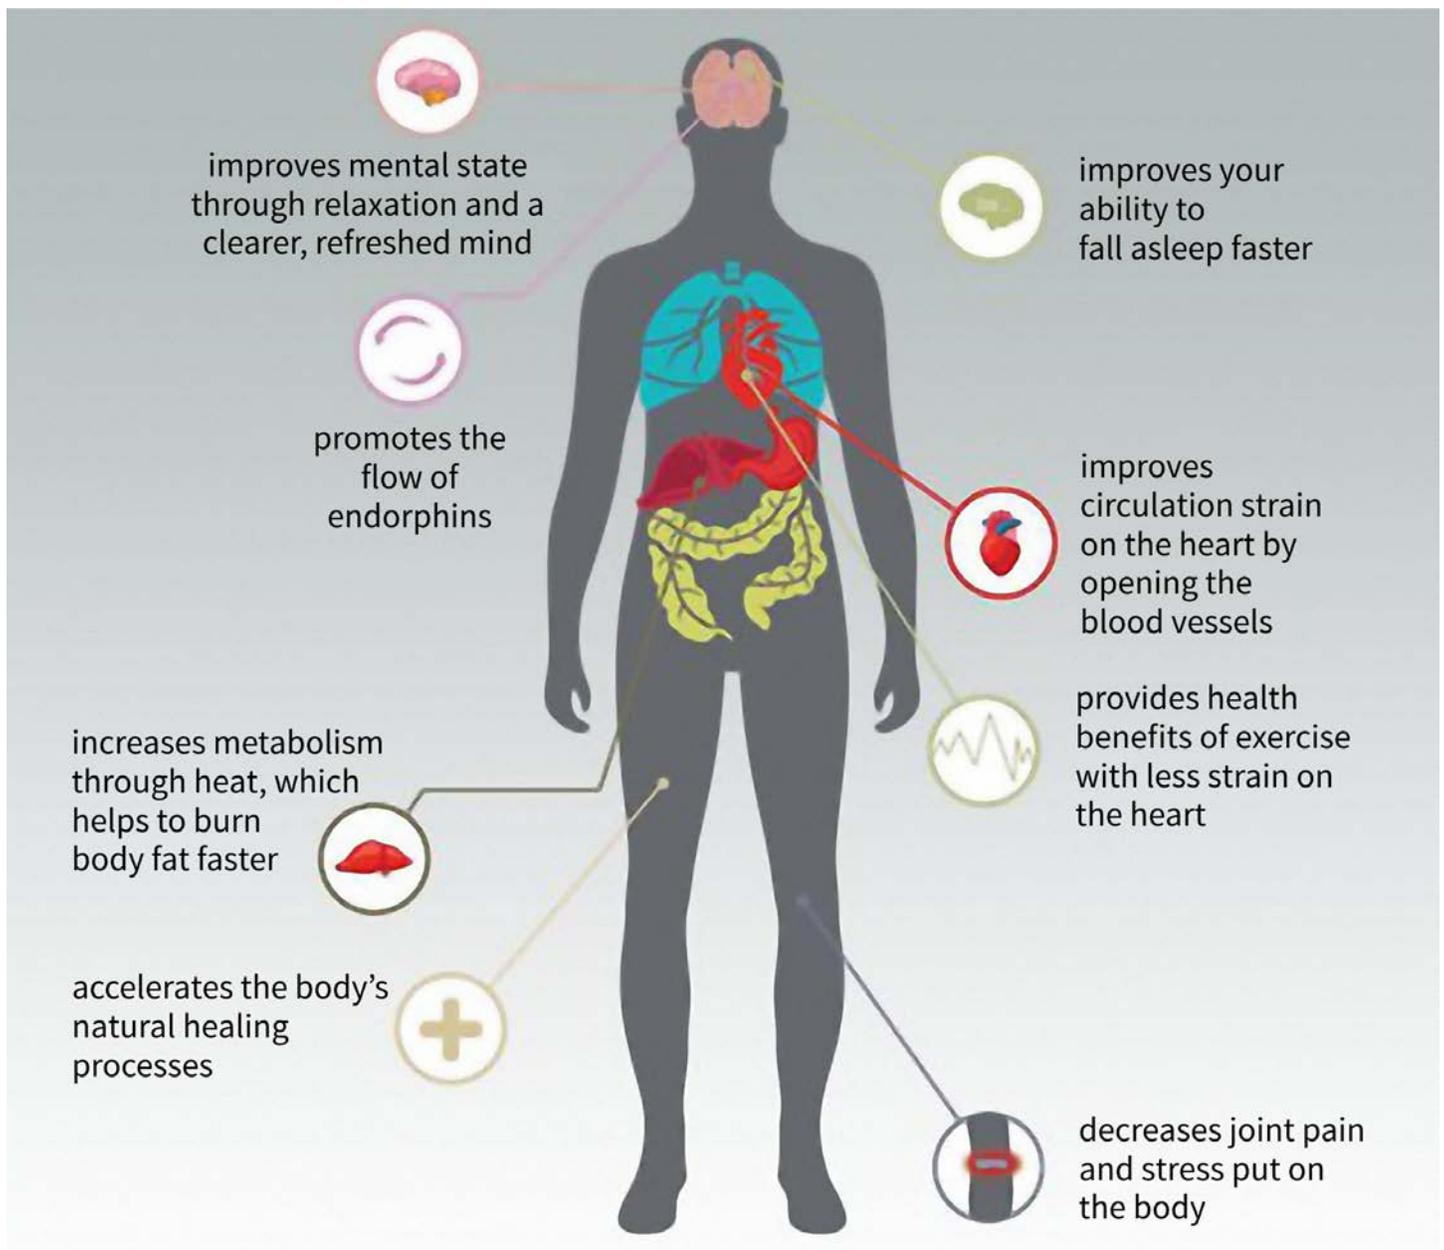

Relief Solutions

Walk-in tubs are designed for those who have limited mobility and need the ability to side transfer into a tub for safer bathing. They are a perfect solution for relief from:

- Foot arch pain
- Headaches
- Heel spurs
- Knee pain
- Lower back pain
- Muscle cramps
- Poor circulation
- Sciatica
- Shoulder or rotator cuff pain
- And more!

Take the stress and worry out of bathing — no more concern over thresholds, stepping into a deep tub, slipping or struggling to get out of the tub.

Experience the SanSpa Difference

We know there are a lot of different walk-in tubs out there, all trying to be your choice for safety and independence. But, not all walk-in tubs are created equally, with you and your specific needs in mind. So what makes SanSpa better than the others?

*Your choice
for safety and
independence.*

When you choose one of our 4 SanSpa walk-in tub models, you'll experience:

- An all-aluminum sit down, slide in, out swing door.
- A high-quality swing door with patented internal door component latching system.
- 180° turning handle for easy opening and closing, which protects against accidentally opening the door during use.
- The door opens out to allow for full, unhindered access.
- A wide 32" door opening lets you walk straight in without twisting or turning.
- Double door seals (no caulk) make it leak proof. Lifetime warranty on the door seal

Contoured door is designed to swing over the top of a standard height toilet or a higher, handicapped toilet, making it a good solution without having to remodel your entire bathroom.

Why Choose SanSpa?

- Multiple points of contact for hands and feet so you can safely enter and exit the tub.
- Slip resistant floor.
- 2" high flow, horizontal drain with ADA handle makes it easy to open and close, fills the tub in 2 minutes or less, fail safe pull chain.
- Single lever high flow faucet — Pivot action lever style handle for easy operation, waterfall fill spout and handheld shower diverter.
- Easy to reach grab bars offer balance and security.
- Strong, durable stainless steel frame comes with a lifetime warranty.
- Textured acrylic shell.
- Easily integrates into most existing bathroom designs.
- Beautiful brushed stainless steel or chrome trim, easy maintenance.
- Loaded jetting package available — water variable jets with heater, air jets, heated backrest and seat, aromatherapy and chromotherapy options available.

All SanSpa Five Star products are fully certified with the ETL and UPC.

SanSpa FAQ's

How many gallons of water does the tub hold?

Our 5129 models hold 60-65 gallons, without a person in the tub.

The 5126 models hold 50-55 gallons, without a person in the tub.

What is the fill time?

Our valve has an 18gpm (gallon per minute) rating. With full water flow, it will take 2 ½ to 4 ½ minutes to fill.

May I use soap or bath oils?

There is no warning on our jetting products stating not to use oil or bubble bath. However, we do recommend you sanitize the tub after using these products.

How do I clean the tub?

For everyday cleaning, a soft cloth with mild soap and water is all you need. Always rinse after cleaning. DO NOT use scouring pads or abrasive/caustic cleaners. Vinegar and water may also be used to soften water minerals. To disinfect, use bleach diluted with water. Regularly disinfect the tub to ensure the water jetting system stays clean.

How fast does the tub drain?

Two minutes or less when properly plumbed.

How many jets are in the tub?

The water jetted tubs have 8 jets. The air jetted tubs have 16 jets. The dual has both 16 air and 8 water jets.

What colors are available for the tub?

White or Biscuit.

What finishes are available for trim?

Brushed stainless.

What size of water heater is needed?

We recommend a minimum of 40 gallons for gas water heaters and 80 gallons for electric water heater.

What is the tub composed of?

Acrylic finish with ABS and Fiberglass backing, which comes in smooth and textured finishes. The door and jam have all-aluminum construction. The tub frame is made of stainless steel.

At SanSpa, our mission is to help people with chronic pain improve the quality of their lives, and to create ways for individuals to safely age in place on their terms, in their own homes.

SanSpa has the best all-aluminum, sit down, slide in, out swing door tub available today. We offer all the best features at the best price in the marketplace. Maybe you've already started shopping for a walk-in tub, only to get discouraged at the high prices. The truth is, you're getting retail prices. All those TV and AARP ads cost big money, and you're the one who ends up paying for them.

At SanSpa, we can save you \$3,000-\$4,000 or more because our walk-in tubs come factory direct to you. We're not going to build in the cost of national advertising, multiple layers of suppliers, dealers, contractors, fancy showrooms. We don't pay sales commissions.

Why customers choose SanSpa:

- Relaxed buying process with no retail sales pressure
- We are your 2nd opinion
- We offer consultations in-person or over the phone
- Installation is available, or we offer unique DIY factory assistance

To start your journey to independence, safety, relief and better health with a SanSpa walk-in tub, contact us today at **(800) 555-5136** or learn more at www.sanspaua.com.
